

# **Marine Accident & Incident Investigation**

**Institute of Maritime Education &  
Training Pte Ltd, Singapore**

**An Introductory Course for Accident  
and Incident Investigation**

# **A CERTIFICATE COURSE IN “MARINE ACCIDENT AND INCIDENT INVESTIGATIONS”**

## **The Need for Investigation.**

The objective of any marine casualty investigation is the prevention of further similar casualties by discovering the reasons behind the casualty and then promulgating actions, information and recommendations where appropriate with a view to preventing similar casualties. It is important that any recommendations arising from an investigation are based on sound analysis and are capable of practical implementation.

## **Course Aims:**

This course aims to introduce the participants to the philosophy, processes and procedures required to support a marine casualty investigation, in accordance with the IMO Assembly Resolution A.849(20) and the Code for the Investigation of Marine Casualties and Incidents.

## **Course Content:**

The main topics that will be covered in this course are:

- Initiation of an accident investigation;
- Initial Actions;
- Managing the Investigation;
- Witnesses and Interviews;
- Physical Evidence;
- Human Factors;
- Analyses, Tools and Techniques;
- Conclusions and Recommendations.

## **Training Methodology:**

Lectures, Case Studies and Group Discussions

**Who Should Attend?**

- Ships Operators
- Ship Managers
- Superintendents
- Ship's Senior Officers (Deck and Engine)

**Course Duration:**

1 ½ days
