

RISK ASSESSMENT & RISK MANAGEMENT

**Institute of Maritime Education &
Training Pte Ltd, Singapore**

**A High Quality Risk Assessment &
Management Course**

AN INTRODUCTORY QUALIFICATION IN RISK MANAGEMENT

A CERTIFICATE COURSE IN “RISK ASSESSMENT AND MANAGEMENT - PRINCIPLES & PRACTICE”

Introduction:

The effective assessment & management of risk, especially the balance between risk and rewards, is vital in today's complex and interconnected world. To be effective, risk assessment and management processes must be directly linked to business goals and cover the full range of both risks and possible responses.

A properly implemented programme of risk assessment and management can assist in the prevention of injuries, facilities, property damage incidents and other losses. The **Risk Assessment & Management - Principles and Practice** Certificate Course is designed for managers, supervisors and all those who have a responsibility to conduct risk assessments.

Course Aims:

At the end of this course, the participants will be able to:

- understand the general philosophy and methodology of risk assessment;
- identify hazards, assess, evaluate and control risk of work processes at the workplace;
- carry out structured risk assessments;
- understand how to effectively carry out cost benefit analysis and manage risks

Course Content:

The main topics that will be covered in this course are:

- Introduction
- Basic Terminology;
- Principles of Risk Assessment, Management & Communications;
